OUR STORY

Pursuing my true passion for art, nature, plants, gardening and craftsmanship has motivated me to start my business in producing artfully designed planters.

Through years of attending trade shows in both Europe and the US, I couldn't help but notice the appreciation the US market consistently had for beautiful, hard-to-reach products from my native country, Belgium. I am here to bring two worlds together.

Belgium, a land celebrated for its rich artistic heritage, has inspired me to craft planters that transcend mere functionality and transform into exquisite works of art. Combining it with craftsmanship in the US, in particular North Carolina, my new home nation, has allowed me to deliver these simple, elegant and timeless planters with a lead time of 5 weeks, in weatherproof material. They withstand the extreme weather conditions, salt, sun and freezing cold.

These planters are more than vessels; they are conversations between art and nature, waiting to grace your living spaces.

Artfully Designed Planters.

Made by hand.

Made in North Carolina.

Made for you.

Let me know how I can help you,

Yours artfully,

Tom Paeshuys from JoinUs.

North Carolina Molded Stone planters combine Belgian design with local North Carolina production.

They are solid as a rock! These stunning handmade vessels offer the unique look of clay while providing the durability of stone.

The material withstands extreme weather conditions.

All models are available in 9 colors:

white | beige | ochre | grey | ochre | sand | terra| brick | forest green

Colors for visual reference only. Samples available upon request.

Lead Time: 5 weeks
